Carta del director

Dear Students, Parents, and Faculty,

As we come together to reflect on the incredible year we've had at Fontenebro, I am filled with immense pride and gratitude. The journey we've embarked upon as a school community has been truly remarkable. This year has showcased the unwavering spirit of resilience, honesty, empathy, creativity, teamwork, and responsibility that defines our school's values.

Our commitment to these values has been at the heart of our success. We have faced challenges head-on, demonstrating our resilience by turning obstacles into opportunities for growth. We've nurtured a culture of honesty, knowing that it is the bedrock of trust and integrity, ensuring that we learn from both our successes and our setbacks.

Empathy, a cornerstone of our school community, has allowed us to better understand and support one another. Through our creative endeavours, we have explored the boundless realms of imagination, using our creativity to enrich our learning and contribute to the world. Teamwork has enabled us

to achieve together what we couldn't accomplish alone, and we've held ourselves accountable for our actions, displaying a strong sense of responsibility.

In the pursuit of academic excellence, we've seen remarkable achievements this year. Our increasing proficiency in the English language has opened doors to broader horizons, expanding our capacity for learning, communication, and understanding the world. This growth is a testament to the dedication of our students and the exceptional efforts of our faculty.

Director

2022/23

At Fontenebro we firmly believe that a good struggle is the key to getting better. It is through perseverance and the willingness to step out of our comfort zones that we make amazing learning possible. Each day, our students demonstrate the strength of their character, the depth of their curiosity, and the power of their determination. These qualities are what make our school genuinely extraordinary.

Our commitment to delivering an outstanding learning environment goes beyond the classroom, encompassing outdoor improvements, the ongoing nature of our international curriculum, and the Eco School project are other aspects in which we have achieved significant progress this year.

I want to highlight the exciting developments and ongoing initiatives that will continue to shape the educational experience at Fontenebro.

Outdoor Enhancement: Our dedication to fostering holistic growth in our students goes hand in hand with our outdoor enhancement initiatives. We recognize the importance of nature in the learning

process and are committed to providing students with ample opportunities to connect with the outdoors. We will be investing in further improvements to our outdoor spaces, creating environments that stimulate curiosity, exploration, and physical well-being. These enhancements will not only facilitate academic learning but also promote environmental consciousness and appreciation.

Continuity of International Curriculum: We take immense pride in our international curriculum, which has been a cornerstone of our educational approach. It allows our students to explore global perspectives, broaden their horizons, and develop a deep appreciation for diverse cultures. As we move forward, the continuity and refinement of this curriculum will remain a top priority.

We are dedicated to ensuring our students receive the highest quality education, equipping them with the skills and knowledge to thrive in an interconnected world.

Eco Escuela Project: Our commitment to sustainability and environmental awareness through the Eco Escuela project remains steadfast. This initiative has not only enriched our school

community but has also instilled a sense of responsibility and stewardship for our planet. We will continue integrating ecological principles into our curriculum and campus life, inspiring the next generation of environmental leaders.

At Fontenebro, we believe that these elements, in combination with our core values and educational principles, offer a truly transformative educational experience for our students. We are dedicated to their growth, well-being, and success, and we look forward to another year of inspiring, learning, and leading.

As we turn the page to a new year, I am filled with optimism and excitement for the future. Together, we will continue to uphold our values and create an environment where every student can flourish. Let us embrace challenges as opportunities, celebrate our diversity, and strive for excellence in all our endeavours.

I want to express my heartfelt appreciation to our dedicated faculty, supportive parents, and, most importantly, our amazing students. Your collective efforts and commitment to our school's mission have made this year one to remember.

I look forward to the new heights we will reach, the discoveries we will make, and the growth we will achieve in the year ahead. Let us continue to inspire, learn, and lead with the values that define us.

Wishing you all a Merry Christmas and Happy New Year!

Thank you for your continued support, trust, and partnership in shaping the future of our students.

Kind regards,

Our bilingual project

As Head of Learning, it is with much pride to express my satisfaction with how the school community is embracing the focus on learning which is reflected so well on the pages of this edition of the Yearbook where we can see so many motivated students enjoying a variety of learning experiences.

To maximise potential it is essential to be motivated. This is because it enhances engagement, sustains effort, and promotes perseverance, fostering an optimal environment for acquiring and retaining new knowledge and skills. When we talk about skills we do not only mean those related to a specific subject but also abilities that will help them develop to be effective global citizens that can adapt to a changing world and be life-long learners.

Our bilingual project is naturally one of the pillars in our education programme and we continually reflect on ways to improve the English language learning at school. For example, this year we are implementing a complete phonics programme called Jolly Phonics from 3 years in Early Years that progresses into Primary. This will not only help our learners with their reading and writing skills but also with their pronunciation to be effective communicators in the future. More and more of our students are reaching the higher levels of English language competence shown through our excellent Cambridge results but it's critical that our younger students are given the solid foundations from which their language learning can grow and flourish.

INTERNATIONAL
SCHOOL

En nuestra escuela infantil nos gusta aprender jugando, lo que nos ayuda a desarrollar nuestras habilidades y talentos. Vamos conociendo nuestras emociones a través de la música y el arte. Aprendemos a respetar y escuchar a los demás en un entorno rodeado de naturaleza.

Tenemos clases de psicomotricidad y natación. También en nuestro huerto descubrimos la naturaleza y aprendemos en la Ecoescuela.

Educación Emocional y en Valores

A través del programa de Educación Emocional, liderado por nuestro Gabinete Psicopedagógico, ayudamos a nuestros alumnos a conocerse y a confiar en sí mismos, a comprender a los demás, a reconocer y expresar emociones e ideas, a desarrollar el autocontrol, a aprender a tomar decisiones responsables, gestionar las emociones, valorar y cuidar su salud y mejorar sus habilidades sociales y comunicativas.

Fontenebro Solidario

Nos define un firme compromiso con la sociedad y el entorno. Tanto el colegio como nuestros alumnos colaboran en programas de voluntariado e iniciativas solidarias de importantes ONG.

Metodología activa y participativa

Fomentamos la implicación y responsabilidad del alumno haciéndolo el protagonista de su propio proceso de aprendizaje.

Educación Musical

Desde la etapa de Ed. Infantil, pasando por la Etapa de Primaria y hasta terminar la Educación Secundaria van desarrollando sus habilidades y conocimientos en distintos aspectos: la audición, la voz, el ritmo, la danza, la práctica con instrumentos, la lectura de partituras, el conocimiento de los elementos fundamentales de la música y su evolución a lo largo de la Historia (estilos, compositores, etc) y la música de otras culturas.

Además de la Música como asignatura curricular, el Departamento de Música lleva a cabo y organiza otras actividades como Coro, Orquesta, Escuela de Música y El Coro de las Emociones.

La música y la habilidad para tocar los distintos instrumentos es fundamental en nuestro proyecto educativo. Centro Examinador Oficial del Trinity College London. 100% aprobados Trinity.

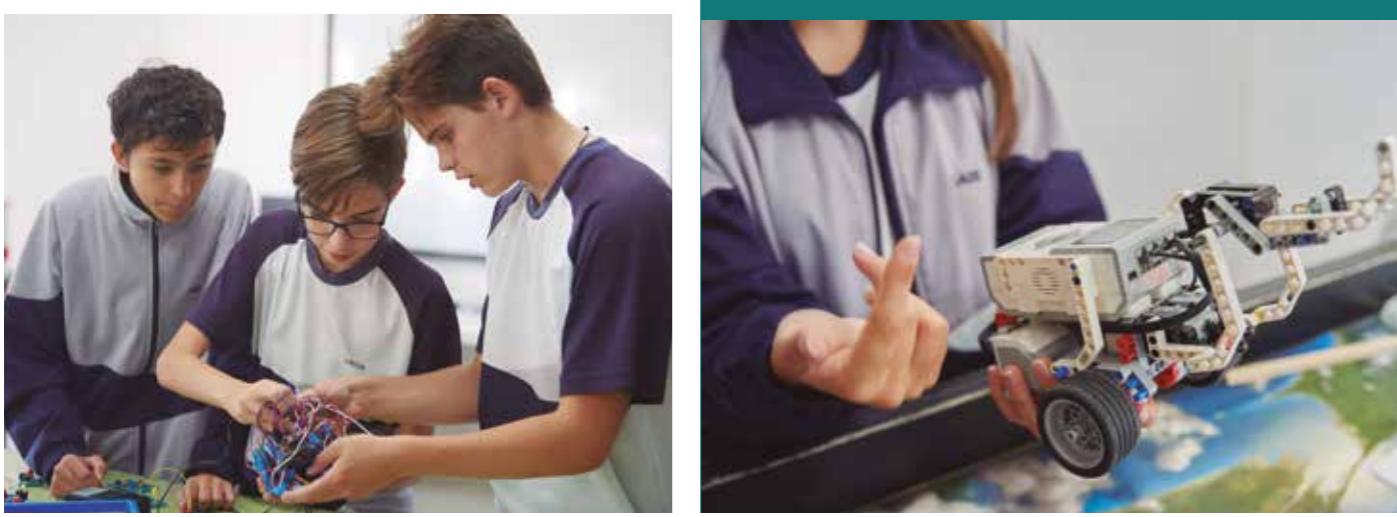

New Technologies

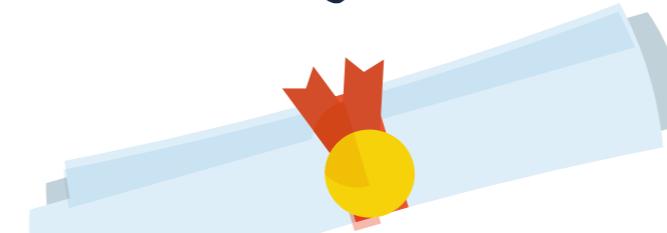

In Fontenebro International School we foster technological skills through collaborative work in project based learning, making the subjects of technology very attractive for the students.

We work progressively in Robotics, starting at an early stage with Lego WEDO in primary, passing on to Lego

Mindstorms in the first years of ESO and continuing with BQ Robotics and Electronics devices in upper secondary school. To complement the work done in class, we participate in the First Lego League competition (secondary) and Jr. First Lego League (primary) promoting scientific and technological vocations in our students.

EDUCACIÓN INFANTIL

CURSO 2022-2023

1 AÑOS A

A group of young children, mostly boys, are sitting on the floor in front of their teacher. They are all wearing dark blue tracksuits. The teacher is a woman with long hair, smiling at the camera. The background is white with various colorful cartoon stickers like a beach ball, a car, a teddy bear, a rabbit, a rocket, and a building block.
